CONSULTING

## Rowena Rizzotti

Board Director, Business Consultant & Strategy Advisor

# About Me

*Rowena Rizzotti is a visionary leader with nearly 40 years of experience in **health, technology, and business**. She has developed Fraser Health's research and innovation strategy (2012), founded the Innovation Centre for Healthy Aging, which won the **2015 Innovator of the Year Award**, and **co-founded Canada's first Legion Veterans Village**, a \$310M project supporting veterans.*

*Rowena also led the creation of Surrey's \$2B **Health and Technology District** and oversaw the \$500M redevelopment of Surrey Memorial Hospital. Named one of '**Business in Vancouver's** Top 500 Business Leaders (2022) and Surrey **Business Woman of the Year (2018)**, she holds two master's degrees and has served in senior roles such as **COO of Northern Health Authority**.*

*Committed to consultative collaboration, Rowena excels at turning visionary ideas into transformative projects that benefit communities across North America.*

# Experience History.

## VP of Operations

*2022 - Now*

BC's largest private senior's care operator

*2003 - 2008*

BC's Northern Health Authority

## Executive Director, Clinical Programs & Operations

*2008 - 2013*

Fraser Health Authority

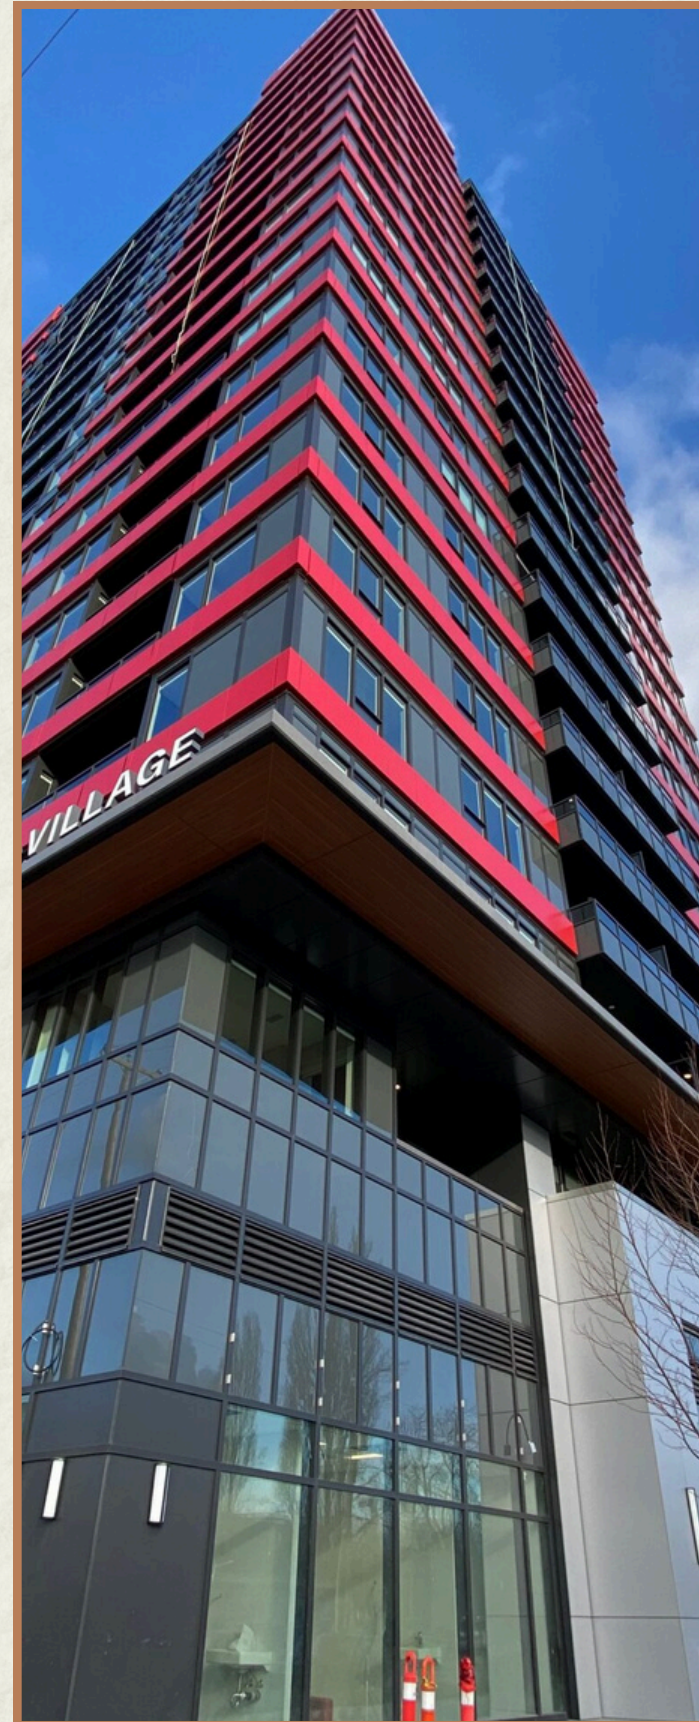

# Co-Founder

## Health and Technology District

*Surrey, British Columbia*

A \$2-billion dynamic hub for innovators, developing global solutions to enhance health outcomes and healthcare delivery. It brings together leading minds, academics, entrepreneurs, startups, and multinational companies to revolutionize healthcare. Ideally situated, the District is poised to improve lives.

# Co-Founder

## Legion Veteran Village

*Surrey, British Columbia*

Legion Veterans Village is a \$312-million project in downtown Surrey, B.C., offering integrated health care, rehabilitation, and housing for veterans and first responders. Opened in February 2023, it provides cutting-edge medical services and innovative support for military health care.

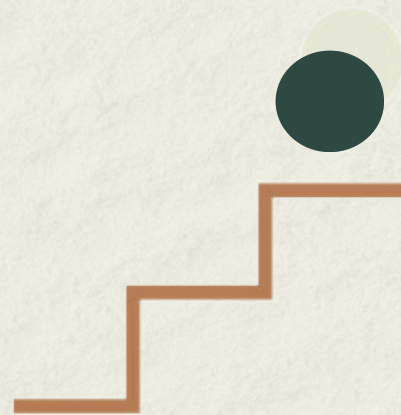

# Executive Lead

## Health and Technology District

*Saint John, New Brunswick*

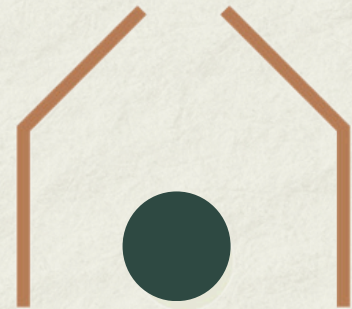

The Health and Technology District in Saint John (DISTRICT SJ) is a hub for innovators, entrepreneurs, and healthcare professionals to collaborate on digital health technologies that improve patient care and healthcare economics in New Brunswick. Focused on digital health research, DISTRICT SJ aims to drive economic growth and job creation. Phase 1 is estimated at \$50 million per building.

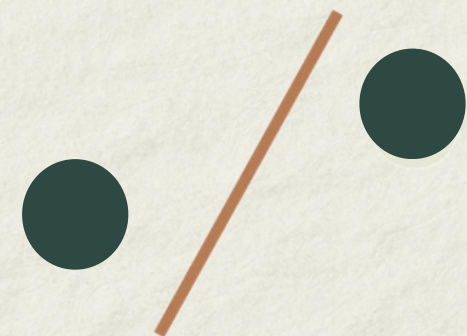

## Strategic Planning & Executive Leadership

Develop comprehensive strategies to meet business goals while providing leadership to ensure effective execution and decision-making, steering the company towards growth.

## Innovation, Technology & Business Practices

Stay agile by analyzing industry trends and adopting innovative technologies, keeping the business competitive and adaptable to change.

## Strategic Planning & Executive Leadership

Build strong relationships through open communication with stakeholders, while enhancing leadership capabilities through executive coaching for better decision-making.

# Contact Me.
